RE: Letter of Reference / Recommendation for: Centerline Utilities, Inc.

To Whom It May Concern:

On behalf of Culpepper & Terpening, Inc., we would like to take this opportunity to thank Centerline Utilities, Inc. for the experiences we have had with their firm working on several projects within the Treasure Coast over the past few years. Most recently we are completing the installation of a reclaim water and irrigation system under a joint private-public with the City of Port St Lucie and Stuart Land Holdings. Their construction management skills in meeting deliverables and quality are well above expectation.

The communication amongst their subcontractors, the engineer and the owner is above approach. It is refreshing to find a contractor who is diligent in the quality of work and who sets a higher standard for others to follow; a true 'team' player.

They have the ability to adapt to changing field conditions and have offered on many instances professional comments and suggestions that have improved the quality of the finished product.

Their exemplary performance in meeting the City of Port St Lucie needs has been influential in their services being considered for future public as well as private projects.

Again, based upon our experience with Centerline Utilities staff, it is our pleasure to provide this letter of recommendation and referral. We do not hesitate to recommend Centerline Utilities for any utility work within their field of practice that will be challenging and demand the best of a contractor, as we are confident they will exceed all expectations.

Sincerely,

Steven J. Doyle P.E., Division Manager
Fl Lic. No. 47197
